DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: Independent claims 1, 6, 11, and 15 recite a multi-channel stimulator specifically limiting the number of switching elements to be determined from the number of electrode contacts/groups multiplied by the number of digital-to-analog converters present. The prior art discloses multi-channel stimulators containing the elements above, however, fail to describe alone or in combination the specific limitation of the claimed invention. Therefore, the Examiner deems independent claims 1, 6, 11, and 15 and their depending claims allowable over the prior art.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Loeb et al. (US Patent no. 6,002,966)

Altman et al. (US Patent no. 4,726,379)

Tanie et al. (US Patent no. 4,425,776)

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
